Benefits of pureAir HVAC

Continuous Air Purification

Reduces Odors

Minimal Maintenance

Constantly Cleans Duct System

Distributes Oxidation Evenly

Ideal for Most Indoor Spaces

Active Oxidation Improves Air Quality

Installed into your existing ductwork, pureAir HVAC features the same purification technology developed and used by NASA.

Active Radiant Catalysis (ARC®), our proprietary photocatalytic oxidation (PCO) technology uses energy to activate a catalyst, turning moisture into products that continuously clean your space.

With a reactive surface area 16x greater than the competition – ARC® continuously purifies your space. The result is the reduction of allergens from pets, pollen, and smoke, as well as odors from mold, mildew and more.
